

Plastic Netting for Industry

Parts Separators

Protect your parts from chipping, abrasion and corrosion with reusable plastic netting.

- * Protect parts from chipping and abrasion
- * Resistant to most chemicals
- * Reusable
- * Eliminate oil-soaked cardboard

Part Number	Polymer	Thickness	Roll Size	Hole Size	Color	Weight (PMSF)		
Nominal Specifications								
XN 6300	PP	.145"	36"x 500'	.275" x .275"	Natural	250 lbs.		
Heavy Duty Net	XN 5010	PP	48"x 300'	.275" x .297"	Natural	168 lbs.		
	XB 5030	HDPE	48"x 300'	.25" x .25"	Black	178 lbs.		
	XN 5050	LDPE	48"x 300'	.25" x .25"	Natural	172 lbs.		
	XN 2170	HDPE	.085"	37.5"x 400'	.315" x .260"	Natural	75 lbs.	
Medium Duty Net	XN 2335	PP	48"x 400'	.282" x .274"	Natural	75 lbs.		
	XV 1347	HDPE	.065"	47.5"x 800'	.125" x .125"	Black	137 lbs.	
	XB 1132	MDPE	.130"	48"x 500'	.45"	Black	121 lbs.	
	Standard Duty Net	XB 1131	MDPE	.080"	48"x 500'	.25"	Black	110 lbs.
XN 0260		PP	.059"	41.5"x 400'	.203" x .187"	Natural	62 lbs.	
XN 1678		PP	.035"	43.5"x 400'	.120" x .175"	Natural	54 lbs.	
XB 1130		MDPE	.050"	36"x 500'	.150"	Black	55 lbs.	
XB 4260		LDPE	.070"	36"x 500'	.125"	Black	46 lbs.	
XE 4240		LDPE	.074"	20"x 500'	.25"	Blue	92 lbs.	
XY 4230		LDPE	.080"	18"x 500'	.25"	Yellow	133 lbs.	
XR 4250		LDPE	.074"	24"x 500'	.25"	Red	93 lbs.	

Protection and Material Handling

NetGuard & Vexar®

These tubular, “soft” netting sleeves provide cushioned protection of individual parts. NetGuard and Vexar® are elastic nettings that conform to virtually any size and are the ideal packaging material for shipping high value parts to your customers.

NetGuard & Vexar® Tubular Netting “Sleeves”

- * Protect individual parts from damage
- * Help eliminate corrosion
- * Conform to virtually any size
- * Available in a variety of colors
- * Easy to apply
- * Reusable

Different colors of NetGuard come in easy-to-use, self dispensing cartons for greater labor savings and flexibility.

Custom cut to length sleeves also available.

NetGuard Standard Duty Elastic Sleeves

This low-density polyethylene netting is highly elastic, and has a soft, cushioned feel. NetGuard stretches up to twice its diameter and is our most economical tubular sleeve for the protection of irregular-shaped parts from damage often caused during shipping and handling.

Part Number	Diameter Range	Color	Roll Length
NG 8010	1/4" to 1/2"	Orange	1000'
NG 8020	1/2" to 1-1/4"	Light Blue	1000'
NG 8030	1-1/4" to 2"	Navy Blue	400'
NG 8040	2" to 3"	Red	200'
NG 8050	3" to 4"	Beige	200'
NG 8060	4" to 5-1/2"	Yellow	200'
NG 8070	5-1/2" to 7"	Brown	200'
NG 8080	7" to 8-3/4"	Gold	200'

Vexar® Workgrade Elastic Sleeves

Vexar® Workgrade elastic sleeves are our thickest, sturdiest protective sleeves, with additional strands and closer spacing. Although not as elastic as Standard or Super Duty Sleeves, Workgrade sleeves provide extra thick protection for individual parts. Workgrade Sleeves are reusable and can eliminate the need for other expensive and time consuming protective wrappings like bubble wrap, Styrofoam, cardboard, paper or wood.

Part Number	Diameter Range	Color	Roll Length
NG 3010	1/4" to 1/2"	Yellow	820' or 1500'
NG 3020	1/2" to 1"	Blue	820' or 1500'
NG 3030	1" to 1/2"	Red	164' or 1500'
NG 3035	1-1/2" to 2"	Black	164' or 600'
NG 3040	2" to 2-1/2"	White	164' or 500'
NG 3045	2-1/2" to 3"	Yellow	164'
NG 3050	3" to 4"	Green	164'
NG 3060	4" to 5"	Orange	164'
NG 3065	5" to 6"	Brown	164'
NG 3070	6" to 7"	Blue	164'
NG 3080	7" to 9"	Natural	164'

Vexar® Superduty Elastic Sleeves

Versatile Superduty sleeves are made from low-density polyethylene, but are heavier, with closer strand spacing than our Standard Duty NetGuard, - still with great elasticity. These elastic netting sleeves will stretch easily over a broad range of part sizes and shapes to provide a “form fit” soft cushion for economical protection against abrasion, scratching, chipping and corrosion.

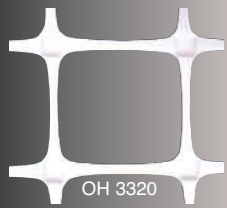

Part Number	Diameter Range	Color	Roll Length
NG 2010	1/4" to 3/8"	Red	820' or 1500'
NG 2015	3/8" to 5/8"	Orange	820' or 1500'
NG 2020	1/2" to 1"	Blue	820' or 1500'
NG 2030	1" to 2"	Yellow	164' or 1500'
NG 2040	2" to 4"	Red	164' or 1500'
NG 2060	4" to 6"	Green	164'
NG 2070	6" to 8"	Brown	164'
NG 2080	8" to 10"	Crystal	164'
NG 2090	10" to 12"	Green	164'

Custom Fabrication

Industrial Netting custom fabrication and converting services are driven by meeting and exceeding the customer's quality and delivery requirements, and to provide value to our customers through consistent performance that can be relied upon time and time again.

Our expertise and efficiency in converting plastic netting and prompt response to delivery requirements allows customers to confidently out-source secondary operations, gaining improved product quality at lower cost.

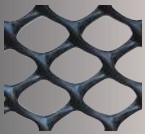

- Slitting** Precision slitting of roll goods to customer requirements.
- Sheeting** Custom sheeting of materials to customer requirements. Prompt turnaround on small quantity and short lead-time orders.
- Die Cutting** Custom cutting of material to any shape and size.
- Fabrication** Sonic welding and heat sealing of plastic netting into shapes.
- Packaging** To your specifications
- In Stock** For immediate shipment

Warehouse Safety

Heavy duty RackGuard plastic grid contains warehoused goods on storage racks. It's strong, durable and resists sagging to help reduce the risk of warehouse damage and personal injury from falling boxes.

Use our narrower RackGuard products (i.e.XB 1132) for containment of moving parts on conveyor belts.

RackGuard & Conveyor Guard

Part Number	Roll Width	Roll Length	Tensile Strength*	Color	Hole Size**
OB 1610	13.1'	164'	1507	Black	2.18" x 2.08"
OH 3320***	13.1'	164'	1400	White	2.25" x 2.38"
OB 1100	13.1' & 9.8'	225'	850	Black	1.5" x 1.1"
XB 1132	4'	500'	n/a	Black	.45" x .45"

Cable ties available - 7", 14", 24" Product available in full rolls, less-than-full rolls, or cut-to-size pieces
* lbs/ft ** Nominal *** Flame retardant

Visit our website or ask for RackGuard literature for complete information.
