Clam Netting for effective predator control

Select from our complete range of strong, durable plastic netting to help protect your valuable clam beds. Hard clams, round clams, quahogs, littlenecks, cherrystones, chowder clams, geoducks, oysters and more can be covered with netting in rolls up to 17 feet wide – or in the custom sizes you need!

Apply netting over seeded beds in sub-tidal or inter-tidal zones for protection from natural predators like blue, mud and horseshoe crabs, conch, snails, birds, sting rays and others. Net is easily staked in place and easily rolled up for clam harvesting.

- High quality grids with consistent hole sizes
- UV stabilized for longer life (except Freeze-Free ON 5349)
- Full 14' widths (except OB2650 which is 12' and OV1678 which is 17')
- Custom sizes available

Clear Clam Netting is also available for growers in northern climates. This clear netting will not absorb heat as readily as black, UV stabilized nets. Specify Light Duty ON5349 to reduce entrapment in surface ice during repeated freezing and thawing.

1/6"
Standard

OV-7100

Mesh Size: 1/6"
Weight/MSF: 10 lbs.
Product width: 14'
Polymer: Polypropylene
Color: Black

1/4"
Standard

OV-3018

Mesh Size: 1/4"
Weight/MSF: 8 lbs.
Product width: 14'
Polymer: Polypropylene
Color: Black

1/4"
Extra Duty

OV-7822

Mesh Size: 1/4"
Weight/MSF: 12 lbs.
Product width: 14'
Polymer: Polypropylene
Color: Black

ON-5349

Mesh Size: 1/4"
Weight/MSF: 4 lbs.
Product width: 14'
Polymer: Polypropylene
Color: Natural

1/4"
Freeze-Free

OV-1581

Mesh Size: 1/2"
Weight/MSF: 9 lbs.
Product width: 14'
Polymer: Polypropylene
Color: Black

1/2"
Standard

OV-1670/1678

Mesh Size: 5/8"x 3/4"
Weight/MSF: 2.9 lbs.
Product width: 14'/17'
Polymer: Polypropylene
Color: Black

3/4"
Economy

OB-2650

Mesh Size: 1"x 3/4"
Weight/MSF: 12 lbs.
Product width: 12'
Polymer: Polypropylene
Color: Black

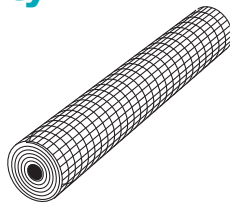

3/4"
Extra Duty
