Nylon Rack Guard

by INDUSTRIAL NETTING

deflect product away from walkways and people ...

Nylon **Rack Guard** nets provide an economical employee safeguarding and product retention solution that's customized to meet your needs.

Offered in two different mesh sizes and load ratings, when properly installed on the back side of racks or in flue spaces between racks, these nets help comply with storage rack guarding requirements under OSHA 1926.250.

- Constructed of 100% nylon with strong, 5/16" poly rope binding
- All materials 100% North American sourced and fabricated
- Easy to install with UV-stabilized nylon tie wraps included
- Flame resistant

TWO MESH SIZES AND LOAD RATINGS TO MEET YOUR REQUIREMENTS

4" Square Mesh

- Ideal for heavy objects or typical pallet loads
- 2,500 lbs. load rating
- 940 lbs. tensile
- 8' width with 8'3" and 12'3" lengths available

1.75" Square Mesh

- Multi-purpose mid-range protection for racks and conveyors
- 1,250 lbs. load rating
- 340 lbs. tensile
- 8' x 8'3"

CONTACT US FOR CUSTOM SIZES AND MINIMUM ORDER REQUIREMENTS

Use Nylon Rack Guard to:

- Improve safety for employees
- Reduce damage to warehouse goods
- Maintain a uniform appearance
- Protect traffic areas and workstations from falling objects
- Keep product from falling between back-to-back racks
- Form a see-through wall for easy product identification

Additional uses:

- Shelf dividers to segregate product
- Security barriers to discourage pilferage
- Conveyor guards to contain boxes
- Machine guards or safety barriers
- End cap safety barriers
