Environmentally Friendly ■ Non-Corr

Home & Garden Barrier Netting

Lightweight environmentally friendly plastic netting protects shrubs, decorative plants, nurseries, vineyards, and berries from foraging wildlife. Plastic deer fencing, cat fencing and rabbit fencing form durable, long lasting passive barriers. And plastic netting won't rust like wire.

Choose from a variety of long lasting polypropylene and polyethylene netting in easy-to-use consumer packs that unfold or unroll to 25-foot lengths, 50-foot lengths or 100-foot lengths.

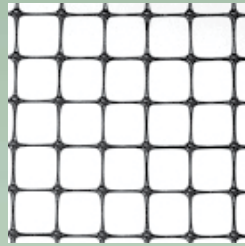

Visit industrialnetting.com/garden.html or industrialnetting.com/home.html to select the netting or mesh that best suits your needs. Most products ship next day.

Deer Fence

OB 2510*

- Barrier Net roll widths range from 39 inches to 17 feet
- Visit industrialnetting.com/pest for complete product specifications

*Not shown actual size - hole opening is 1 3/4" x 2"

Bat House Netting

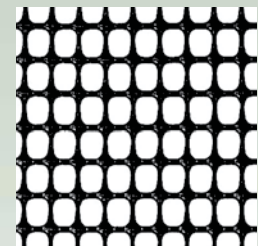

Plastic netting stapled to the inside of bat houses provides a roughened surface for bats to cling to.

Unlike metal screening, condensation and urine won't rust our UV stabilized plastic mesh.

Recommended in the Bat House Builders Handbook.

osive ■ Non-Toxic ■ Non-Conductive

Agricultural & Crop Protection

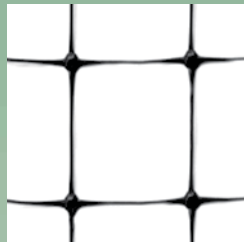

Lightweight plastic netting is the environmentally preferred method of pest exclusion because it presents virtually no harm to birds, bats, or small pests. It just helps keep them "out".

Installation Made Easy

POLYCLIPS "Instant Grommet"

- No tools required!
- Hang from rope or wire.
- Just fold over and snap.

Each Polyclip has 5 small teeth to capture the net and align the opposing sides of the clip, and 2 large clamping teeth to hold the clip together after closing.

Watch our Polyclips video at [YouTube.com/industrialnetting](https://www.youtube.com/industrialnetting) for installation & splicing tips.

Commercial & Structural Applications

- Warehouses
- Hangars
- Buildings
- Stadiums
- Parking Ramps
- Drive-thrus
- Residences
- Plants
- Open air markets
- Commercial buildings
- Food processing plants
